Sample Conclusion & Conclusions Inducing worksheets conclusions is a skill with which students often need a lot of practice. If you were looking for resources in the same places that I have, you probably weren't too happy with what you found. I believe the conclusions of the worksheets that I have created are of higher quality than other available resources, and as usual, I give them away for free. I hope you will appreciate these conclusions of the worksheets and that your students can better this valuable reading skills. In each worksheet, students are asked to do two things: answer questions where solutions can only be provided by making logical conclusions, and explain how they got their answers. Having students explain their answers helps slow them down and cause them to think about what they're doing, and open-ended questions make it easier for the teacher to identify when students are copying. These in-seveative worksheets are now also available as workbooks to read. If you have a question or need further clarification on any of these issues or worksheets, leave a comment.
